

# OVERWATCH (Roll-a-Round)

## Large Area Surface and Air Purification

Overwatch is designed to eliminate mold, bacteria, and viruses in large commercial spaces. With exceptional portability and a sleek aluminum case, the roll-a-round floor model effectively reduces odors in the air and embedded in upholstery from sources such as food, pets, mold, and smoke. This powerful remediation capability is possible due to the unit's Photo-Catalytic Oxidation, UV-Lamp Ozone, and HEPA Filter technology.

Recommended for large occupied spaces such as: Hospitals, Nursing Homes, Clinics, Veterinary Offices, Schools, Daycare Facilities, Gyms, Locker Rooms, Athletic Training Facilities, Restaurants, Cafeterias, and more!

## Benefits of OVERWATCH

 Exceptional Portability

 Powerful Remediation

 Reduces Mold, Bacteria, & Viruses

 Reduces Smoke, Pet, & Food Odors

 Treats Large Occupied Spaces

 Watertight Manufacturing

# OVERWATCH (Roll-a-Round)

## Features & Specifications

### Performance

- Airflow: 262CFM (Cubic Feet per Minute)
- Warranty: 2 Year Manufacturer's Warranty

### Unit

- Unit Dimensions: (HxWxD)  
18.5" (470mm) x 559" (673mm) x 20.5" (521mm)
- Weight: 39 lb (17.69kg)
- Powder Coated Aluminum

### Power

- Input Voltage: 120 VAC/60Hz, 230 VAC/50Hz
- Operating Voltage: 120 VAC, 230 VAC
- Operating Wattage: 143W - 274W
- Operating Amperage: 1.43A - 2.78A
