

SIREN

Emergency Vehicle Purification System

SIREN is designed to be a permanently mounted unit, specifically for EMS, Fire, and Rescue Vehicle applications. SIREN renders bacteria, viruses, mold, mildew, and other contaminants in the air, and on all surfaces, effectively harmless on a continual basis. Treatment from SIREN also eliminates odors to create a cleaner, safer work environment for emergency service personnel and their patients.

Benefits of SIREN

- Mounts in or on the Ceiling
- Treats both Air and Surfaces
- Destroys Mold, Bacteria, & Viruses
- Eliminates Odors, VOC's, & Smoke
- Even Distribution throughout Vehicle

SIREN

Features & Specifications

Performance

- Airflow: 125 CFM (Cubic Feet Per Minute)
- Ozone Output: < 0.05 ppm
- Coverage: 4000 ft.³
- Warranty: 2 Year Manufacturer's Warranty

Unit

- Unit Dimensions: (HxWxD)
 - Flush Mount: 16.0" (406mm) x 9.50" (241mm) x 2.50" (63.5mm)
 - Surface Mount: 14.0" (356mm) x 7.50" (190mm) x 2.50" (63.5mm)
- Weight: 2.7 lb (1.23kg)
- Powder Coated Aluminum or Stainless Steel

Power

- Input Voltage: 12VDC
- Operating Voltage: 12VDC
- Operating Wattage: 0.86W
- Operating Amperage: .7A
